It has everything a buyer is expecting of this kind of property.

The garden is an oasis of greenery, peaceful and quiet with lots of privacy and the only thing you can hear is the singing birds. It has very private large 9 x 4 SALT WATER swimming pool (which does not irritate skin or eyes) and separate outdoor facilities with toilet, shower, sink with filtered tap water and there is a covered and uncovered BBQ area. Further you will find a jacuzzi, and for the children a trampoline and wooden climbing frames and of course the lovely private pool.

The garden has a fully automatic irrigation system for all the mature trees and natural grass in this lovely garden. Down by the pool is a large garage for 3 cars with electric doors and has a storage room.

Next to the garage is a covered outdoor space which also can be accessed by 2 cars by electric door and at the moment used as a covered terrace.

The garden is equipped with security cameras and alarm and has lighting.

The villa itself has also an alarm system with security cameras.

When you enter the villa from the large terrace on the front, you will come into the very large living room with very high ceiling which gives a wow factor.

To the right there is a large dining area which has direct access from the very spacious kitchen.

To the left from the living room there are 3 very large bedrooms and 2 bathrooms (1 bedroom is en suite).

From the living room there is a staircase going down to a massive basement with windows so you have natural light.

This room has many wardrobes for clothes and can be used for many purposes like game room, table tennis and billiards or as another bedroom while it has a separate leisure room with 2 showers, massage table and separate bathroom with toilet.

Coming back to the living room the impressive staircase leads up to another 2 large bedrooms and 2 bathrooms (1 is en suite) and this bedroom has access to a large terrace with amazing views over the pool and play area and to the natural park across the street. Also, you will find here another room which is the gym and has the same amazing views as the terrace on this floor.

All the sinks in this property inside and outside have their own filtered drinking water and they have also installed a water softener system for the entire property. The pressure of the water is very good in the whole property because there are extra water deposits installed with their own pump to have enough pressure in the villa and in the garden for the irrigation sprinklers. All the installations are in 2 large separate rooms for easy access and maintenance of the machines.
